Languages: PHP,C#,Dart,JavaScript,HTML,CSS,Dart
Databases: MySQL,SQL
Tools: Git,Figma,Crystal Report

Proficient in ASP.NET Core MVC, Laravel, Angular, C#, PHP, Dart, and JavaScript. Experienced with MySQL, SQL, Git, Figma, and Crystal Reports. Strong in both front-end and back-end development.

DEVELOPMENT JOURNEY

FreshShop E-commerce
ASP.NET Core MVC 8.0, SQL
FreshShop is a full-featured e-commerce application built with ASP.NET Core MVC and SQL Server. It enables users to browse products, manage their cart, and complete secure purchases. The platform includes product search, user authentication, and an admin panel for managing inventory and orders.

Student Portal Clone – APTECH Garden Center
Laravel, PHP, MySQL, HTML, CSS, Bootstrap
Developed a dynamic student portal using Laravel with role-based authentication for students and admins. The system includes modules for attendance tracking, grade management, and real-time data interaction with the database. Designed an intuitive user interface with Bootstrap and ensured smooth backend integration using MySQL. This project demonstrates strong full-stack development skills and practical implementation of core academic management features.

RESTful API – ASP.NET Core MVC & SQL Server
ASP.NET Core MVC, SQL Server, Swagger
Built a RESTful API using ASP.NET Core MVC with SQL Server integration. Implemented GET and POST methods for data handling and integrated Swagger for interactive API documentation and testing.
